

ایران امریکہ کشیدگی اور پاکستان

دہلی کی ایک درس گاہ میں، پندرہ دنوں سے لڑائی چھوڑنے والی افغان فوجیں نے امریکہ کے ساتھ ایک معاہدے پر دستخط کیے ہیں۔ یہ معاہدہ امریکہ اور افغانستان کے درمیان ایک نیا دور کا آغاز ہے۔ امریکہ نے افغانستان سے اپنی فوجیں ہٹانے کا وعدہ کیا ہے۔

ایران اور پاکستان کے درمیان کشیدگی اور پاکستان کے ساتھ امریکہ کے تعلقات میں تبدیلی آئی ہے۔ امریکہ نے پاکستان کے ساتھ ایک نیا معاہدہ طے کیا ہے۔

پہلے پڑھیں اور پھر بات کریں۔ اللہ تعالیٰ نے ان کو اللہ کے ساتھ لڑنے کی ہمت دی ہے۔ ان کو اللہ کے ساتھ لڑنے کی ہمت دی ہے۔ ان کو اللہ کے ساتھ لڑنے کی ہمت دی ہے۔

اللہ تعالیٰ نے ان کو اللہ کے ساتھ لڑنے کی ہمت دی ہے۔ ان کو اللہ کے ساتھ لڑنے کی ہمت دی ہے۔ ان کو اللہ کے ساتھ لڑنے کی ہمت دی ہے۔

NATIONAL UNIVERSITY OF COMPUTER & EMERGING SCIENCES

FAST-National University of Computer and Emerging Sciences (NUCES), is one of the leading universities of Pakistan in the field of Computer Science, Engineering and Management Sciences, that is entitled for Federal Charter through Ordinance No. XXII on July 1, 2000. FAST Foundation for Advancements of Science and Technology is its sponsoring body. As per the charter issued by the federal government, FAST-NUCES is permitted to open campuses all over Pakistan. Living up to its founding vision, National University of Computer & Emerging Sciences-FAST, popularly known as FAST-NUCES, has five established campuses located in Faisalabad, Islamabad, Karachi, Lahore and Peshawar.

THE FOUNDATION

Unlike most other private sector universities, FAST-NUCES do not capitalize upon revenue generation at a whole rather it's a philanthropic organization lead by a board. Its Governing Board comprises eminent persons who are associated with FAST-NUCES in an honorary capacity. They provide their indispensable services and devote their time to manage the affairs of the university without any remuneration.

ACCREDITATION

The university offers Bachelor's, Masters, and PhD programs in various disciplines, which include Business Administration, Civil and Electrical Engineering, Computer Science, and Mathematical Sciences. Its programs are accredited by Pakistan Engineering Council (PEC) and National Computing Education Accreditation Council (NCEAC). The syllabi are reviewed on yearly basis to ensure relevance of the curriculum with market needs. Because of its excellent academic credentials, FAST-NUCES is recognized as one of the top universities of Pakistan.

DEPARTMENTS

The Karachi Campus of the university has three schools:
 • School of Computer Science offers BS program in Computer Science & Software Engineering; and MS programs in Computer Science, Computer Networks & Security, Software Project Management, and Data Science. PhD Programs in Computer Science
 • School of Engineering offers BS, MS & PhD programs in Electrical Engineering
 • FAST School of Management offers programs at the undergraduate level

The success of Computer Science and Electrical Engineering has set a benchmark for FAST School of Management which has already entered into various competitions in various disciplines. The university has more than five hundred full-time faculty members, out of which one hundred forty hold PhD degrees, earned from reputable universities.

ADMISSIONS

The university admits more than two thousand five hundred students annually who are selected out of about twenty thousand applicants through online test. The online admission test is held at all five campuses and there is no discrimination in admissions on the basis of domicile, ethnicity, religion or sex. Admissions are made purely on merit without any quota allocation. The current overall enrollment at the Karachi Campus stands around 2000.

FINANCIAL ASSISTANCE

The university offers Qarz e Hasna (an interest free loan) to cover partial or full tuition fee, and more than 300 students from Karachi campus received this financial aid during 2017-18. Other scholarships are also available. Some of the prominent ones are listed below:
 • Sindh Endowment Board • Balochistan Endowment Board • ICT R&D • Memon Foundation • Aga Khan Foundation • Mezzan Bank • Various Minority Communities Scholarships

FAST FELLOWSHIP FOR PH.D STUDIES

In order to establish a strong PhD program that attracts bright students from all over Pakistan, FAST-NUCES has introduced PhD scholarship for the promotion of its PhD programs by removing financial impediments faced by talented but indigent students. The selected scholars receive an amount of Rs 60,000 per month in addition to full tuition fee waiver. Duration of scholarship is of three years and may be extended for a period of one year by the Board of Advance Studies and Research. The eligibility for this scholarship must fulfill all the requirements for the award.

EXTENSIVE RESEARCH INITIATIVES

FAST-NUCES extends efforts to encourage research in the field on Information and Technology various research societies have been established to motivate the learners towards the inception of creation and innovation.
 • Systems Research Laboratory
 Systems Research Laboratory has received the prestigious award of NVIDIA Teaching and Research Center. This awards entities the Computer Science Department to conduct cutting edge research and teaching at graduate and undergraduate levels. Recently, the laboratory also received research grant of approximately 5.8 million PKR under HEC NRPJ project. The project titled "Developing Efficient Communication Infrastructure for Large-Scale IoT Devices in a Smart City" is being used to develop an efficient middleware which can support high speed network communication. The middleware will incorporate deep neural networks to strengthen IoT security and improve decision making in smart cities. Dr. Saad A. Shama is the PI of the lab. Social Media Pakistan 0345-6732117

Smart Video Surveillance Lab

FAST-NUCES Karachi Campus has been awarded Rs. 39.3 million from Planning Commission of Pakistan and HEC to establish state of the art Smart Video Surveillance Lab as part of National Centre for Big Data & Cloud Computing - NCBC, Pakistan. The lab aims to extract appropriate and timely information from large number of video streams that can benefit government agencies, hospitals, and educational institute. In this regard, the lab plans to develop three video surveillance-based applications: (a) Theft Car Surveillance, (b) Real Time Weapon and Face Recognition from CCTV Images, and (c) Suspicious Activity and Evidence Detection using Smart IoT Systems and Active Learning to address the needs of providing security to the citizens of Pakistan. This project aims to finish by May 2021. Prof. Muhammad Asif Tahir is the PI and Dr Nouman Durani is the Co-PI in this project.

INTERNATIONAL JOB PLACEMENTS

FAST-NUCES has been recognized both nationally and internationally as a premiere university imparting quality education. The recruitment of a large number of FAST-NUCES graduates by multi-national corporations bear testimony to this. Graduation from FAST-NUCES is a guarantee for lucrative, competitive and challenging job. In short FAST graduates have guaranteed job offers in their hands even before completion of the program.

Microsoft headquarters in USA has almost one hundred FAST-NUCES graduates helping create next generation of software for the world.

EXTRA-CURRICULAR ACTIVITIES

Students are encouraged to participate in a host of co-curricular and extracurricular activities to complement classroom teaching. Academic, social and cultural programs are hosted by the students. This also helps them to mold their personalities with attributes of intellect and excellence. FAST-NUCES students have been actively participating in variety of competitions all over Pakistan and have regularly won prizes. The university emphasis on character building and inculcating leadership skills is an integral part of the learning environment of the University. A number of societies provide the mentioned opportunities. The Karachi Campus students societies are:
 • Character Building Society • Dramatics and Entertainment Society • The Literary Club
 • Web Masters • Sports • Think and Create • PROCOM
 The campus has chapters of the following international organizations: IEEE • IEEE NUCES • ACM • ACM NUCES

LAB FACILITIES

Karachi Campus is equipped with 15 state-of-the-art laboratories for Computer Science and Electrical Engineering departments having latest computers and equipment. In addition, the students also get access to well-equipped Computer-assisted Language Laboratory to help them improve their listening and speaking skills, and more importantly, presentation skills with the help of language learning software and equipment.

CAMPUS FACILITIES

At Karachi Campus, students enjoy a wonderful learning environment as they are provided with fully air-conditioned class rooms and labs having modern infrastructure including audio visual facilities. A new centrally air-conditioned building has been built comprising of a large, state-of-the-art library, a large modern auditorium and a spacious cafeteria for students. For extracurricular and recreational activities, on campus gymnasium, football ground, badminton court, volleyball court and indoor games facilities are available. FAST-NUCES is committed to promoting and enhancing research in various disciplines. Emphasis on research and training in research methods is an important characteristic of the University. Currently several research groups are working in different disciplines. This can be gauged by the ever increasing number of PhD students, who have grown from zero to about one hundred and fifty in the past eleven years. So far, fifty three plus scholars of the University have been awarded PhD degree, and each one of them meets or exceeds the stringent criteria laid down by the Higher Education Commission (HEC) of Pakistan.

FAST ALUMNI NETWORK

The alumni of Karachi Campus are spread over a vast network all around the globe. Major employer include, Microsoft, Google, Yahoo, PSC, State Bank of Pakistan, IBM, Unilever, KCOM Security, Ufone, Faysal Bank, Bank Alfalah, Allied Engineering, Avanza Solutions, Orient Energy, Systems Ltd, JSP Coats Pakistan, Pakistan Cables, Pakistan Petrochemicals, Colizee Tech, Traclecky, Streedom, Ten Pearls, TPS, Engro Chemicals, Felicio, K-Electric, PFCIL, Mobilink, Mazek Global, Techlogix, Proctor & Gambler, Pak-Suzuki, Fort Qasim and many more.
 Some of the recent achievements of the Alumni of Karachi Campus include winning the Academy Award for best visual effects in movies like frozen and the securing 2nd position at the facebook Hackathon held in USA.

THE NOVEL APPROACH OF FAST GRADUATES

Our graduates are well highlighted for their participation in extra curricular activities vividly. Students of FAST-NUCES possess a streak of creativity in them. With reference to this context in the academic event organized by the FASTV ACM society revolves all the "Coders Cup". A propitious initiative was taken this year, the theme for this year was very unique and novel. A battalion between Marvel VS DC, comics was highlighted. The participating teams were House Batman, House Captain America, House Iron Man, and House Superman. Overall students participated enthusiastically and combined their intellectual skills along with innovative ideologies to conquer the victory. Coders Cup had various other segments as well. It was indeed an opportunity for the students to share their zeal and talents in the field of Information & Technology.

PERSISTENCE AND PERSUASION TOWARDS LEARNING

FAST-NUCES through the years has maintained the legacy to compete and deliver excellence in education. The students of FAST-NUCES Karachi Campus under counselling of their Academic Advisors are developed competitively. Students are provided with various opportunities to express their potentials and compete with the market representatives. National Electronics Olympiad (NEO) was organized by at Ghulam Ishaq Khan Institute, Rawalpindi. Students of FAST-NUCES Karachi Campus participated in this prestigious event and gained immense exposure. Around 150 students from all over Pakistani universities and colleges choose NEO to demonstrate their competence and expertise across variety of areas ranging from line tracking robots and heavy duty battle bots to electronics, coding and PCB Design. After a substantially sturdy competition, FAST Islamabad was awarded the trophy, while Karachi team BACKLASH won the title of 1st runner up for FAST Karachi in RoboWar Module. The contribution of our students in such competitions helps them to be resilient and agile towards learning.

Why FAST-NUCES?

- All programs are accredited by relevant accreditation bodies
- BS(A&F) is accredited by International ACCA with several exemptions of papers
- Leading University of Pakistan producing world class graduates that are employed nationally and internationally
- FAST-NUCES has produced more than 20,000 graduates
- Graduates have established many companies that are earning revenue of millions of dollars
- A great many graduates of FAST-NUCES are employed by Multinational IT Companies
- PhD Fellowship carries a stipend of Rs. 60,000 per month
- Fully Funded MS Scholarships available in Software Engineering and Data Science (Islamabad Only)
- Highly qualified and experienced faculty
- Well-equipped labs
- Entrepreneurship and startup support
- Need based study loans available

CHARTERED ACCOUNTANCY

A standard that the world follows

WHAT IS CHARTERED ACCOUNTANCY?

Chartered Accountancy is a rewarding career and there are excellent prospects for employment in audit firms as well as in local companies, multi-nationals, and local and foreign banks. To become a Chartered Accountant you need to be motivated, possess analytical skills, numerical ability, a keen sense of what is going on in the world of business and finance, and personal qualities such as reliability and discretion. You will be required to study accounting, auditing, finance, taxation, management, business and information systems.

WHAT IS THE INSTITUTE OF CHARTERED ACCOUNTANTS OF PAKISTAN?

The Institute of Chartered Accountants of Pakistan (ICAP) established under The Chartered Accountants Ordinance, 1961 is a self-regulatory body of professional accountants in Pakistan. It represents accountants employed in public practice, business and industry, and the public and private sectors. ICAP professionals are spread across the globe and are in high demand due to their professional competence, integrity and drive for professional excellence. With an 8000+ member network ICAP is a premier Accountancy body and a symbol of prestige.

WHAT IS CA PAKISTAN QUALIFICATION?

The globally recognized qualification by the Institute of Chartered Accountants of Pakistan gives students a thorough understanding on key subjects relating to both accounts and non-accounting fields.

The intensive training of 3.5 years would result in you becoming a world class professional. Currently our Chartered Accountants are working in top positions in leading organizations of Pakistan and all over the world.

WHAT SCHOLARSHIPS ARE AVAILABLE?

For all interested students, there are two types of scholarships available.

Edhi CA Pakistan Talent Scholarship

The Institute of Chartered Accountants of Pakistan (ICAP) launched Edhi CA Talent program in 2013 with the objective of preparing top talented youth for Chartered Accountancy. A good number of students have been given scholarships by ICAP under the umbrella of Edhi CA Talent program till now. All the recipients of this scholarship are among top 20 position holders of their respective intermediate boards.

Eligibility Criteria:

The applicant must be among the top 20 students in the merit list of HSC/ F.Sc/ I.Com/ FA/ ICA of respective intermediate boards. Talented students of Sind, Punjab, Baluchistan, Khyber Pakhtunkhwa, FATA, Gilgit Baltistan and Azad Kashmir.

Program Highlights

Subject to continuous performance, following financial support will be given to the selected student:
No registration Fee
No examination Fees
No Tuition Fees
Monthly Stipend
Boarding & Lodging Expenses (Conditions Apply)

Endowment Fund

The Institute has established the Students' Endowment Fund in 2008 to support bright and financially deserving students who want to pursue Chartered Accountancy education. Applications are invited from deserving students through their RAETs, who must fulfill the following criteria:

- AFC Level
Minimum 80% in HSSC or equivalent qualification
Minimum 65% marks in graduation/ post graduation; or
Minimum 2 Bs in A-Levels
- CAF Level
For 1st Attempt at CAF level, AFC should be passed in first attempt
After the 1st Attempt at CAF level, all subjects to be passed in first attempt or overall a maximum of one failure in CAF level shall be acceptable.

PROFESSIONAL AFFILIATE SCHEME

ICAP Launched a mid-tier qualification, termed the "Professional Accounting Affiliate" to recognize the efforts of those students who have completed the required practical training and passed a significant part of advanced stage of CA qualification by awarding them the "Professional Accounting Affiliate" status. Such advanced stage students are well recognized for their competence locally and internationally, owing to Institute's high quality education and examination system and rigorous of its training regime.

The holder of this certification is an officially recognized part of the Institute's professional family and would be entitled to use the designation of "Professional Accounting Affiliate" or "Affiliate".

BASIC ELIGIBILITY CRITERIA:

If you have completed the practical training under the bye-laws and passed either of the following sets of papers you will be eligible for certification as "Professional Accounting Affiliate":

- Papers of Modules E and F by before August 1, 2016:
- (i) Advanced Accounting and Financial Reporting; and
 - (ii) Any two papers of Modules E and F.
OR equivalent examinations
- Papers of Certified Finance and Accounting Professional examinations effective from August 2, 2016:
- (i) Advanced Accounting and Financial Reporting;
 - (ii) Advanced taxation; and
 - (iii) Business Management and strategy.
OR equivalent examinations

Chartered Accountancy

A standard that the
world follows

Become a CA

As one of the most sought after qualifications in Pakistan today our CAs hold influential positions as business leaders and decision makers. From large corporations to multinationals, you'll find a CA shaping their success.

Eligibility Criteria

- Intermediate (FSC, FA, ICOM, ICS)
- A-Level
- 14 or 16 years Graduate

Scholarship Scheme

Top 20 position holders in the merit list of respective Intermediate boards can apply for the fully funded Edhi CA Talent Program scholarship.

Usman Institute of Technology

Affiliated with NED University of Engineering & Technology

Serving the nation since 1994

MESSAGES

Prof. Dr. Zahir Ali Syed, Director UIT

UIT has provided close to quarter of century outstanding service to the nation in the field of higher education in engineering and computer science. With its PEC and NCEAC accredited, NED Affiliated, and HEC recognized programmes, UIT is embarking on a journey to reach the next level of excellence.

UIT aims to not only produce high class engineers and scientists, but professionals and change agents. These change agents apart from being field experts and better citizens of our beloved country, would be ready to tackle the problems that beset our country with leadership, ingenuity, and highest level of moral and ethical values. UIT produces well rounded graduates who not only learn hard skills, but also soft skills and they learn to solve problems being faced by our industry, society, and the world at large.

Prof. Dr. Shoaib Zaidi, Head of Academic Programmes

Rapid change surrounds us. Our involvement with recently developed technologies is greater than ever. The mobile phone is a recent development, yet it has changed how we live, earn, play and engage with others. As we use these phones, we discover new unmet desires are new technological and business opportunities. Can batteries be made to last longer? Can the brightness be increased so that one is able to see the images on the screen on a bright day? Can we alter the settings to limit which of the many messages (SMS, Facebook, WhatsApp,) get through to alert us and the remainder we view at our convenience?

Many of us use gmail or hotmail. What do we pay for these services? Yet, if they are slow or inoperative, we complain. gmail, for example, offers suggestions to complete your sentences. Microsoft Word corrects many grammar and spelling mistakes. Correct spellings and grammar used to be emphasized in schooling yet are now available at negligible costs. Thus, such skills that are increasingly achievable through computation and artificial intelligence will have less value in the future.

These changes pose challenges to traditional education models as they require updating the curricula and the methods of teaching. Globally there are initiatives and activities to keep education relevant. As academics at Usman Institute of Technology, it is incumbent upon us to keep abreast of such developments so that we can bring in current best practices to our teaching. We engage with academic leaders globally to understand the changing landscape of education. We also talk to leading employers and get their feedback of the changing expectations of the workplace.

Based on our learnings, several initiatives are now active at UIT. Several of our faculty members have taken "Active Learning" courses and implemented them. Projects and project-based learning are more common than ever and we see more mature semester projects during our "project days" at the end of the semester."

UIT's Continuous Award Winning Projects

White Coal Machine

Team - UIT won national championship at NGIRI. Dr. Khalid Maqbool Siddiqui (Federal Minister for IT and Telecom) along with Yusuf Hussain (CEO Ignite - National Technology Fund) and Amir Azeem Bjjair (Chairman PTA) awarded Rs. 400,000 cash prize to the winners.

White Coal Machine mechanically stamps briquettes. It is a kind of curing process which can turn biomass material such as sawdust, wood chips and sugarcane bagasse into briquettes (white coal).

Speech Generation Glove

Team-UIT won 1st Prize out of 60 Innovative Ideas in Geek 2019 Competition at Bahria University Karachi Campus & made UIT Proud. UIT students presented the idea of "Speech Generation Glove from Hand Gesture" for the vocally impaired people.

Amazing Industry – Academia Linkages

UIT is one of the few Higher Education Institutes (HEIs) in Pakistan that are accredited by Pakistan Engineering Council (PEC) at Level-II in implementing the Outcome Based Education (OBE) system. The prime benefit of having Level-II accreditation is that the graduates of such HEIs do not need to pass any equivalent or qualifying examination to get work Visas in Australia, Canada, China, Hong Kong, Ireland, Japan, Korea, Malaysia, New Zealand, Russia, Singapore, South Africa, Turkey, the United Kingdom and the United States.

Be Part of PAKISTAN'S BIGGEST EDUCATION EXPO

THE NEWS Education EXPO 2019

Jang Media Group Presents

HR Consultants

The number of students enrolled abroad in higher education has exploded over the past two decades from 2 million in 1999 to 5 million in 2016. With the rise of social media as well as awareness of benefits of an international experience, this number is on the rise still. The same trends have been observed in Pakistan in the recent years as well. In 2013 approximately 50,000 Pakistani students were enrolled in higher education programmes abroad. The number has significantly risen up since, with companies preferring to hire employees with international degrees. Among the countries for Pakistani students to choose from, UK & Australia are a popular choice and rightly so. In QS ranking of the Best Student Cities 2018, 6 from UK and 6 from Australia were among the top 50 cities. London is the top choice for international students looking to study abroad. Similarly, Australia is ranked 18th amongst the safest countries, placating many concerns of students as well as parents. The Post-Study Work Visa (PSWV) is guaranteed for students studying for more than 2 years in Australia. UK offers work placement courses as well. Moreover, the return-on-investment for education in these countries make them an attractive option for individuals pursuing professional degrees. The presence of an advanced system of education that provides support to international students is well received by interested students and parents. Keeping these facts in mind it's not surprising that these countries are the top most popular destinations for international students. Over 100,000 international students are studying in just London every year. Similarly, there are approximately 270,000 university students in Melbourne, Australia, with more than a third (91,000) being international students.

HR Consultants have been working with well established, top ranked international universities since 1993. With experience spanning over more than 2 decades and 10 offices across the country, we provide reliable consultancy, transparent admission & visa processing. We officially represent more than 300 educational institutions globally including UK, USA, Canada and Malaysia, in Pakistan. This grants our

students access to exclusive scholarships & bursaries as well as work placement opportunities from the respective universities. Our services include, but are not limited to, help in selecting the right courses in the right institutions,

HR Consultants have been working with well established, top ranked international universities since 1993. With experience spanning over more than 2 decades and 10 offices across the country, we provide reliable consultancy, transparent admission & visa processing.

securing admissions, visa processing and interview preparation. Additionally, our qualified team of education specialists also prepare students for admission and proficiency tests including IELTS and TOEFL. Our experienced counsellors guide students from the initial stages of selecting an institute to helping them settle in their new environment. Monthly Education Expos are arranged across the country in highly secure venues with international representatives of numerous top ranked universities. They help students with on-spot admissions, profile assessment and answering their queries.

HR Consultants is proud of all its students that have earned valuable education and experience and have thus invested in a fruitful future. In this increasingly competitive and fast paced world, Pakistan needs to pick up its pace to establish and build a positive image. We need to show the world the potential that I know is present in our students. I will ask the younger generation of our country to take the opportunity to study abroad and for that HR Consultants will be honoured to aid you on your journey.

Social Media Pakistan

Campus France

What is Campus France?

Overseen jointly by the French ministries of foreign affairs and higher education and research, Campus France is dedicated to the promotion of French higher education abroad, and providing support services for international students, scholars, and scientists.

Campus France supervises the France Alumni platform. The website allows foreign graduates of French higher education and foreign researchers to stay in touch with France, to communicate with each other and access a large number of internships and employment offers. 300,000 people have already joined the network, from around the world.

To carry out its international activities, Campus France relies on a network of more than 250 local offices in 124 countries. A Campus France office in Pakistan has just opened in April 2019 within the premises of the Alliance Française of Karachi.

Why studying in France?

According to the latest UNESCO data, France is the 4th most popular choice of internationally mobile students after the United States, the United Kingdom, and Australia. And it is the first non-English-speaking country

in the rankings, just ahead of Germany. The knowledge of French language is not a prerequisite for English taught degrees. French universities offer more than 1,400 degree programs in English language. We however advise prospective students to visit one of the 3 Alliances Françaises located respectively in Islamabad, Lahore and Karachi, to learn basics of French language before their departure for France.

Main benefits to study in France: prestigious postsecondary education, affordable tuition fees; cutting-edge science and research; a central place in the European Union; a rich culture and history; and a renowned quality of life.

International students in France are eligible to a number of advantages related to housing subsidy (CAF), 50% discount on transportation, discounts for cultural activities (cinema, museum, etc.), French healthcare system, etc.

Every foreign student has the right to work while studying in France. French law authorizes foreign students to an auxiliary work of 964 hours during the year, the equivalent of 60% of the legal work year.

The Temporary Resident Permit, or APS (for "Autorisation Provisoire de Séjour"), allows foreign students completing master's degree in a French higher education institution to remain in France for one year after the end of their studies to look for a job.

Higher Education/Scientific Cooperation between France and Pakistan

Campus France has been a partner of the Higher Education Commission of Pakistan for almost ten years, and has taken care of more than 700 scholars who studied at a Master and PHD level in French universities.

In addition of the funding made available by the Higher Education Commission of Pakistan, The Embassy of France in Pakistan offers fully funded and partially funded merit-based scholarships to the best Pakistani students interested by studies in France.

At the moment, around 650 Pakistani students are studying in French higher education institutions.

Franco-Pakistani Hubert Curien Partnership (PHC) Program providing opportunities to Pakistani and French researchers to associate for joint research activities. The objective of this program is to develop new scientific and technological cooperation between French and Pakistani higher education institutions/research laboratories by supporting the mobility of researchers from both sides.

In close articulation with the Pak France Alumni Network (PFAN), the Embassy of France in Pakistan is developing the France Alumni Pakistan chapter. We invite all the Pakistani who studied in France to register, free of cost, on the platform to stay in touch with the community and get access to premium employment offers.

STUDY IN THE USA

WHY STUDY IN THE UNITED STATES?

ACADEMIC EXCELLENCE

Enter one of the world's best university systems, with global recognition for its excellence in virtually all fields. At the undergraduate level, outstanding programs exist in traditional disciplines and professional fields. At the graduate level, you will have the opportunity to work directly with some of the finest minds in the world.

VARIETY OF EDUCATIONAL OPPORTUNITIES

There is something for everyone in the U.S. higher education system, whether you are looking for a theory-based course, a hands-on, practical program, or something in between. You will also have various fields to choose from, including arts and the humanities and the STEM fields (science, technology, engineering and mathematics). No matter how unusual or specific your desired field of study, you will find several options in the United States!

OPPORTUNITIES FOR RESEARCH, TEACHING AND TRAINING

As a graduate student, opportunities to teach and conduct research can not only help finance your studies, but also add practical value to your education through insights not available from study alone. International students, with their wealth of new skills and ideas, are highly valued researchers and teachers for U.S. universities.

CAMPUS LIFE

The quintessential U.S. college experience is about more than the time you spend in a classroom – it is also about taking advantage of a wide range of social, cultural and sporting activities, and building lifelong cross-cultural friendships while developing teamwork and leadership skills. Your time in the United States will be enhanced by experiences that develop self-confidence, independence and cross-cultural skills. Most campuses have an International Student Office, but you can also build your own network of friends, professors, and advisers who can offer support and encouragement when you need it.

DIVERSITY ON CAMPUS

Diversity enriches the educational experience by challenging stereotypes and preconceptions and encouraging critical thinking and cross-cultural communication. U.S. universities are renowned for the diversity of their campuses and are always on the lookout for good students from Pakistan.

AM I READY? (CHECKLIST)

There are 5 Steps to U.S. Study. Cut out this checklist and keep it in a handy spot in order to stay on track with your college applications!

1. Research your options

- Define your academic goals
- Compile lists of safety, match and dream schools
- Register on USEFP website for FREE EducationUSA advising www.usefpakistan.org/advising/register
- Attend an EducationUSA open house for general guidance

2. Finance your studies

- Develop a budget
- Research and apply for scholarships and financial aid
- Graduate students: consider applying for the Fulbright Student Program www.usefpakistan.org/Fulbright

3. Complete your application

- Study and register for any required tests (TOEFL, SAT, GRE)
 - Bonus: attend free TOEFL/SAT/GRE workshops at USEFP
- Undergraduate: write personal essay, supplemental essays
- Graduate: write statement of purpose
 - Bonus: attend Statement of Purpose Workshop at USEFP

4. Apply for your student visa

- Submit deposit and financial documentation to university
- After receiving I-20, apply for a visa
 - Bonus: attend free Visa Seminar at USEFP
- Attend visa interview

5. Prepare for your departure

- Buy your ticket
- Register for USEFP Pre-Departure Orientation
- Get settled in on your campus and your new community!

ATTEND THE LARGEST U.S. COLLEGE FAIR IN PAKISTANI!

The South Asia Tour for U.S. college representatives is a biannual event hosted by EducationUSA dedicated to helping students discover the educational opportunities available in the United States. These free events offer a valuable opportunity for students to get face time with college representatives.

Stay tuned for the Fall 2019 U.S. College Fair – for details, visit www.usefpakistan.org/uscollegefair

Indus University

Indus University Group Photo of officials at Fashionista

Indus University recently organized a mega event called "Fashionista". They presented different cultural fusion at the event. The purpose of this event was to give exposure to students of different programs to showcase their skills

The show also included in house singing & dancing by the talented students of Indus University. The officials from various universities attended the event.

Indus University officials Fly To Sri Lanka

Director QEC Ms. Sheema Haider has participated in several international forums and recently contributed in the research paper titled "Campus Management System (CMS): a tool to ease Continual Quality Improvement (CQI) implementation process in Outcome-Based Education Approach" in the Asia Pacific Quality Network (APQN) Annual Academic Conference (AAC) on "Quality Assurance in the Asia - Pacific Region: Insight into the Future" at Colombo, Sri Lanka.

Indus University serves the community:

Indus University considers its core responsibility to work for the welfare of society. University student's faculty members and staff under the supervision of concerned supervisors organize a committee each year for welfare distribution. Participants of the committee collect donations (money, clothes, food etc) and distribute it among people across different areas of Karachi or provide the

gathered donations/charity to NGO's/Foundations. This time in the blessed month of Ramadan, Students have accumulated donations/charity and gave out to the destitute of Karachi. Moreover, another committee was formed under the leadership of deans of all departments for the betterment of society.

Commissioner Karachi Marathon

Indus University participated in the Commissioner Karachi marathon. Indus University has always been supportive in various events to boost such activities for students. A grand unified marathon event was organized by Special Olympics Pakistan with support of DHA Karachi in which people of all ages, genders and abilities participated with great zeal and enthusiasm. The starting point of the unified marathon was DHA Sports Club (Moin Khan Academy).

Special Olympics Pakistan which is transforming and empowering lives of people with Intellectual Disabilities, held the exciting event with great fanfare. The event was also meant to highlight the significance of Kashmir Day in a healthy manner with reference to the worst type of brutalities and atrocities unleashed by the Indian forces on people of Kashmir raising their voice for freedom/right of Self-determination. Around 800 athletes with intellectual disabilities attended the event, running side by side. The race categories of the event included 800 M Children's Dash, 5 Km fun Run, 10 Km Competitive Race and Half Marathon. The aim of the event was to create awareness about people with disabilities and to open up venues for inclusion by making people run together despite differences.

THE NEWS Education EXPO 2019

Barrett Hodgson University (BHU)

Our Vision:

Our aim is to be recognized as a Centre of Excellence in the marketplace, where academic pursuits are nurtured and developed. We want to be recognized as an institution of higher education that is globally competitive and specifically oriented towards the future. The world is changing, and changing fast. Technological disruption is reconfiguring the way we operate, whether it relates to the process of business operations or the very way we look and solve our problems. It is also instigating the collapse of distance and the emergence of the global marketplace. Thus, Global focus, and an orientation towards the future are at the heart of our game plan, a strategy that is grounded on four pillars.

One, development of academic linkages with Universities that are leaders in the market: international as well as national institutions

of higher education. Two, development of strategic linkages with the corporate sector to become the market leader in applied research, write case studies, initiate action research for finding solutions to industry problems, and support the process of student placements. Three, transformation of the pedagogy of learning from the centuries' old lecture based teaching methodology towards flipped classrooms and blended learning with the aim of facilitating the process of thinking, questioning, and problem solving. Four, Intellectual broadening and personality development of the students through workshop style courses, industry visits, language labs, sports, and co-curricular activities.

About Barrett Hodgson University:

Barrett Hodgson University (BHU) is a private, not-for-profit institution established by The Salim Habib Education Foundation. BHU's charter was granted by Sindh Assembly and it has been

duly recognized by the Higher Education Commission (HEC) of Pakistan. Barrett Hodgson University is accredited by Pharmacy Council of Pakistan and Pakistan Engineering Council. The University, now in its third calendar year of operation is well positioned to become an exemplary place of learning in Pakistan and in due course it looks forward to become a South Asian leader in the selected disciplines it pursues.

BHU offers cutting edge undergraduate degree programs in Pharmaceutical Sciences, Biomedical Engineering, Bioscience, Computer Science, Accounting & Finance and Business Administration. Furthermore, it is poised to disrupt MBA landscape in Karachi by offering a uniquely tailored program designed to cater to the future employment needs of the market. The teaching and research faculty at BHU consists of over 20 PhD members, who have academic and research credentials from

many renowned national and foreign universities.

As a leading science university in the private sector, it has 21 state-of-the-art laboratories including a multidisciplinary instrumentation lab, skills and simulation lab, numerous power labs, precision labs, a Sanako installed language lab, securities trading lab and high-tech computer labs for practical hands on learning. Covering an area of 6 acres, the Salim Habib Campus located in Korangi Creek, Karachi has globally competitive infrastructure with a huge cafeteria, a four storied well-stocked library, a large sports complex with gymnasium, covered swimming pool, lush green sporting fields, an auditorium, and a five-storied academic block containing lecture halls, seminar rooms, classrooms, labs, etc. BHU offers merit based scholarships, financial aid and a well-thought out outreach program in its cards for the Fall 19. As

they say, 'seeing is believing,' so book an appointment to visit our campus and meet our Faculty.

Hamdard University

Hamdard University is a value based quality education foundation which is set to serve superior liberal education to scholars of every caste, color and creed. A university which do not only preserves the

provide them broad based higher business education.

□ A full time School of Law at Karachi with a commitment to excellence in both teaching and research opened its admissions to

knowledge but also distributes it by achieving the highest level of excellence. The university emphasizes upon character building and integrity in students and also maintain its standards in all domains.

The vision and mission of Hamdard is to create value based higher education center and create upholding higher standards leading to excellence in line with university's motto "In Pursuit of Excellence" with international quality standards in academic programs through research and innovation.

All of our three campuses are highly equipped with learning resources and facilities including libraries, computers with network systems, audio-visual equipments, students teachers centers, transport and extracurricular activities like sports, debates and spring festivals. The Main Campus is composed of 7 faculties offering programs in undergraduate and postgraduate degrees which aims at developing qualified, knowledgeable professionals and scholars who are capable of creating new horizons on the glorious foundation.

In the year 2018-19 Hamdard University, an institution which has promised to focus on educating and nurturing the individuals with different perspective educational field, gave away 883 number of admissions to the candidates who maintained a reputation of academic excellence and commitment to Shaheed Hakeem Mohammad Said's mission.

These following faculties completed their admissions by offering the students nationwide as well as to students overseas

□ Faculty of Engineering Sciences Technology at Hamdard University strives to achieve standards in teaching, learning and research for becoming a renowned engineering and academic faculty. Fest completed its strong motive by welcoming 223 candidates into their faculty in the year of 2018-19.

□ One of the best business school in Karachi, Faculty on Management Sciences provides high quality education in business with a true non-for-profit orientation in line with the philosophy of Founder Shaheed Hakim Mohammad Saeed. HMS attained 95 candidates for the year 2018-19 to

nationwide students who desire their degree in law. In Fall-18 FOL exposed 23 students to L.L.B program and provided guidance to a better future both academically and professionally.

□ Faculty of Social Sciences Humanities offers a curriculum that recognizes its egalitarian and humanistic orientations and the relationship between education and society. FSSH successfully completed their number of seats by selecting 25 students into their program.

□ HCM&D/Hamdard College of Medicine and Dentistry is one of the most reputable medical institution of Pakistan

All of our three campuses are highly equipped with learning resources and facilities including libraries, computers with network systems, audio - visual equipments, students teachers centers, transport and extracurricular activities like sports, debates and spring festivals.

have been designed to equip graduates with enough required theoretical knowledge in order to produce well disciplined, knowledgeable and motivated doctors. In recent batch of HCM&D 102 MBBS and 50 BDS students had been enrolled to gain important aspect of medical education.

□ Faculty of Eastern Medicine at Hamdard University has been the pioneer imparting graduate level Tibbe-e-Unani education in Pakistan. 25 admissions of BEMS programs were permitted to the candidates who are working their way to become successful professionals of Eastern Medicine.

□ The aim of Faculty of Pharmacy is to provide high quality education with a commitment to produce competent pharmacists and highly skilled professional in the fields of clinical and industrial pharmacy. Last year large 340 number of candidates were selected for undergraduate and postgraduate degrees offered by Faculty of Pharmacy for Karachi/islamabad.

Hamdard University
IN PURSUIT OF EXCELLENCE

ADMISSION OPEN

SPRING 2019

FACULTY OF MANAGEMENT SCIENCES

Undergraduate Programs

- ◆ BBA 4 Years
- ◆ **Graduate Programs**
- ◆ MBA 3.5 Years (Specialization)
- ◆ MBA 2.5 Years (Specialization)
- ◆ MBA 1.5 Years (Specialization)

FACULTY OF ENGINEERING SCIENCES & TECHNOLOGY

Undergraduate Programs

- ◆ B.E. Mechanical Engineering
- ◆ B.E. Electrical Engineering
- ◆ B.E. Electronics Engineering
- ◆ B.E. Computer Systems Engineering
- ◆ B.S. Software Engineering
- ◆ B.S. Computer Science

Graduate Programs

- ◆ M.E. Electrical Engineering (Specialization)
 - Power System
 - Communication Systems & Networks
 - Control & Automation
 - Electronic Engineering
- ◆ M.S. Energy & Environment
- ◆ M.S. Computer Science (Specialization)
 - Computer & Communication Networks
 - Software Engineering
- ◆ Ph.D. Electrical Engineering
- ◆ Ph.D. Computer Science
- ◆ Ph.D. Energy & Environment

FACULTY OF SOCIAL SCIENCES AND HUMANITIES

Undergraduate Programs

- ◆ B.S. English (4 Years)
- ◆ B.Ed. (4 Years)
- ◆ B.Ed. (2.5 Years)
- ◆ B.Ed. (1.5 Years)

Graduate Programs

- ◆ M.Ed. (1.5 Years)

FACULTY OF MANAGEMENT SCIENCES

◆ LL.B. Second Division Intermediate with 50% Marks in any discipline or 'A' Level with 50% Marks. Higher Education Commission (HEC) Law Admission Test (LAT) is compulsory for admission.

تقریر: عمیر حسن

میں نے اس وقت تک نہیں دیکھا ہے کہ کسی نے اس قدر سنجیدگی سے اس موضوع پر بحث کی ہوگی۔ اللہ تعالیٰ نے نہ صرف ہمارے لیے بلکہ ہمارے لیے بھی بہترین تعلیم کی سہولتیں فراہم کر دی ہیں۔ ہمیں اس سہولت کو بھرپور استعمال کرنا چاہیے۔

اس وقت ہمارے سامنے دو بڑے چیلنجز ہیں۔ پہلا چیلنج یہ ہے کہ ہمیں اپنی تعلیم کو اپنی زندگی کا حصہ بنانا ہے۔ دوسرا چیلنج یہ ہے کہ ہمیں اپنی تعلیم کو اپنی زندگی کا حصہ بنانا ہے۔

ہمیں اپنی تعلیم کو اپنی زندگی کا حصہ بنانا ہے۔ ہمیں اپنی تعلیم کو اپنی زندگی کا حصہ بنانا ہے۔

زندگی میں تعلیم کی اہمیت

شہر آباد کرنے کے ساتھ ساتھ روزگار کے مواقع بھی پیدا کرتی ہے۔

زندگی میں تعلیم کی اہمیت کو سمجھنا ضروری ہے۔ تعلیم ہی وہ واحد ذریعہ ہے جس سے ہم اپنی زندگی کو بہتر بناسکتے ہیں۔

تعلیم ہی وہ واحد ذریعہ ہے جس سے ہم اپنی زندگی کو بہتر بناسکتے ہیں۔

بہتر تعلیم کے لیے

ہمیں اپنی تعلیم کو اپنی زندگی کا حصہ بنانا ہے۔ ہمیں اپنی تعلیم کو اپنی زندگی کا حصہ بنانا ہے۔

تعلیم ہی وہ واحد ذریعہ ہے جس سے ہم اپنی زندگی کو بہتر بناسکتے ہیں۔

تعلیم ہی وہ واحد ذریعہ ہے جس سے ہم اپنی زندگی کو بہتر بناسکتے ہیں۔

The City School : Largest Private School Network

About US
The City School, established in 1978 is one of the largest private school networks in Pakistan with branches in all the major cities across the country. It currently has 166 schools in 49 cities with over 126,000 students in 458 owned and franchised schools. The City School continues its forty years legacy to expand its reach to meet the demands for quality education.

The City School implements the knowledge and skills-based curriculum derived from the UK national curriculum which guides students from Nursery to Cambridge International Examinations (for the 16 and 18 year age group), qualifying them for the IGCESE and O and A Level examinations.

The City School curriculum and methodology is designed specifically to ensure a smooth transition in teaching and learning from the primary sector through the middle years and on to the final two years of the public examinations' syllabi.

The use of ICTs in The City School Network are shaping the methodology of delivering online education and adding efficiency, convenience, interactivity and outreach to the array of learning programmes.

The City School has taken the initiative of implementing a State-of-the-art Classroom/Learning Management System capable of providing its students with academic resources anytime, anywhere, and in any circumstances.

The City School promotes and encourages co-curricular activities in all of its campuses. Students are encouraged to learn new skills, take responsibility, practice leadership, work under a leader, organize events, conduct programmes and experience hands-on life experiences.

Early Years Education
Children in our Early Years Programme learn by playing and exploring, and through creative activities that develop their critical thinking abilities. The City School aims to increase and sustain the quality of Early Years opportunities so children are more able to fulfill their potential.

Our Early Years Education (EYE) is about three things:
• The child
• The context and environment in which learning takes place
• The child's knowledge and understanding

Our carefully planned curriculum provides teachers with a framework for interacting with children, planning their lessons, and assessing and monitoring child's learning.

The most significant aspect of our Early Years Education is the introduction of the following tools across all campuses:

Robotics
E-learning
STEM Education
Sensory Rooms
Play-based Learning

Citizens of the Future

KHADIM ALI SHAH BUKHARI INSTITUTE OF TECHNOLOGY (KASBIT) was established in 1999. It is a degree awarding Institute (DAI), which is chartered by the Government of Sindh and recognized by Higher Education Commission, Pakistan. Having been placed in W4+ category, it is also the first ISO 9001:2015 certified institute of Pakistan. With its core competency in Business & Computer Education, it offers associate, undergraduate and graduate degree programs.

In its twenty years of operations, KASBIT has made a positive impact in developing the entrepreneurial and leadership skills amongst the youth of Karachi. The degree programs at KASBIT offered at two locations (CMCHS and PAFK), which can accommodate approximately 3,000 students at a time with large size class rooms, high tech computer labs, libraries, study areas and auditoriums. The faculty at KASBIT is highly qualified and experienced which contributes to the professional development and personal grooming of its students.

Imtiaz Razvi, Director Exams, British Council Pakistan

As Director Examinations for British Council in Pakistan I am often engaged with events that celebrate the academic success of young people who have a deep desire to learn and make a difference in their country. Our work in examinations creates opportunity for such young people to access educational opportunities world-wide support the hopes and dreams of these young men and women. Events like NEWS Education Expo are an important platform in helping create educational opportunities for them. Participating in events like this demonstrate our commitment to providing relevant and accessible platforms for young Pakistanis to connect with academic opportunities in the UK. Once these students return from their studies, equipped with new skills, knowledge and experience, they will also become an asset to the country itself. These young people are the future of Pakistan and they can help take this country forward to success. I sincerely hope students make the best of this excellent opportunity.

IELTS takes you places

Join us at the **News Education Expo 2019** and discuss with us an array of opportunities to study in the UK, Canada and Australia. Let us help you by opening a world of great educational opportunities.

Institute of Space Technology

About IST:

We are living in an age of research and development. We surpass our limits on a daily basis, as each new day hosts an innovation - ideas that shape humanity's progress in its ever upward climb. In light of the importance of empowering academia and equipping it with the necessary tools to do its part in striving for the zenith of R&D, it was decided in 2002 that an institute would be established, its purpose being to impart specialized education in space and related science to bring our nation at par with the international community. Institute of Space Technology has achieved an astounding success in a short span of 17 years, owing to the concerted efforts of its leadership, faculty and students to stand out in the field of engineering and to create a national center of excellence in space technology. Today, IST is proud to consider itself a leader in Space Science and Technology and is now ranked among the leading engineering universities/Dals of Pakistan. IST has the unique honor of having all its engineering programs certified under Washington Accord. Similarly, IST is also the only university of Pakistan that has sent a satellite (CUBE-1) to the Lower Earth Orbit (LEO) - this was done on November 21, 2013. IST is making continuous efforts to reach a level where it will be compared with international universities in terms of quality education and research.

Departments and Academics:

Keeping in tandem with the modern global educational scenario, IST has striven towards academic excellence and perfection at all levels whilst ensuring that future professionals produced by the institute should be equipped with required skillset to meet the socio-economic challenges of the world. In a bid to improve quality, competitiveness and to arouse creativity, IST has special programs to cater for the unique requirements of each course offered. As an initial step to ensure that all courses offered are in line with the market needs, the faculty constantly reviews the overall curriculum in a bid to produce engineering graduates of the highest caliber.

Sponsorships/Scholarships at IST:

IST is dedicated towards ensuring that financial issues do not

Graduate and Undergraduate Programs offered by IST:

- IST is offering Graduate and Undergraduate programs in the following disciplines:
- Aerospace Engineering (PhD / MS / BS)
 - Avionics Engineering (BS)
 - Electrical Engineering (PhD / MS / BS)
 - Mechanical Engineering (PhD / MS / BS)
 - Materials Science & Engineering (PhD / MS / BS)
 - Space Science (BS)
 - Mathematics (PhD / MS / BS)
 - Astronomy and Astrophysics (PhD / MS)
 - Remote Sensing and Geo-Information Science (MS)
 - Global Navigation Satellite Systems (MS)

become a barrier between deserving students and quality education, as such it offers many scholarships which include sponsorships specially catered for on a needs basis - this is in addition to those arranged in collaboration with leading R&D organizations & merit scholarships.

Job Placements

Employment opportunities in the aforementioned areas are very diverse in nature due to their multidisciplinary outlook and contribute to all socioeconomic activities of the country. Apart from being involved in the leading R&D institutes of the nation, our graduates are also serving nationally in PTA, CAA, Aviation Industry, WAPDA, IWASRI, EPA, OGDCL, Geological Survey of Pakistan, Urban Unit, PCRWR, Pakistan Meteorological Department, Broadcasting Centers, Mobile Communication Companies, Agriculture/Food Sector, national and international airlines. In addition to this, they are also involved in the aviation industry as some of the leading organizations both local and abroad such as Airbus, Emirates, Air Blue, Shaheen - moreover some have attained a pinnacle through their involvement with various European Space Agencies.

The HELP Education Group

The HELP Education Group comprises HELP University, HELP Academy, HELP College of Arts and Technology, and the HELP International School, located in four campuses in the capital city of Kuala Lumpur and in the state of Selangor in Malaysia. Our mission is to help people succeed in life and to live a life of significance through education, and our vision is to be recognized as an innovative and imaginative provider of educational opportunities by making them affordable and accessible. From its founding in 1986, HELP has performed as a social business enterprise and focused its efforts to provide quality education for people. This vision has guided HELP's progression from a tuition centre to global corporation delivering diploma, foundation, undergraduate and postgraduate programs to Malaysian students and international students from Europe, the Middle East, Oceania and many countries in Asia. It is also franchising programs internationally. HELP has a total of 10,000 students, a small cohort of 30 students at its founding, the student population has increased to 12,000, including international students from 60 countries, and a staff of 400, including academics from abroad. Our creative academic leadership and innovative management has enabled us to pioneer and successfully deliver 3+0 programs from UK and Australian universities, and 4+0 programs from US universities.

HELP is the first university to establish a Chair of Human Dignity to teach students about human dignity and social and ethical values and behaviour - elements which are now embedded into the curriculum. We created the ELM (Entrepreneurship, Leadership, Management) framework as a guide for business, as a pedagogy for nurturing business graduates and entrepreneurs and as an academic concept. The practice of ELM has succeeded in driving the growth and transformation of HELP. HELP offers a diverse range of undergraduate and postgraduate programs in business, management, economics, law, communication, psychology, IT, the social sciences, humanities, early childhood education and economic crime management and ACCA. It is also a leader in research and scholarship in specific disciplines and subject areas.

HELP has strong partnerships with top universities and its network covers research organizations, scholars and governments in Asia Pacific, Europe and North America. Over the course of 33 years, HELP has not only attained a level of maturity and sophistication as the industry leader in Malaysia, but has also extended its reputation for academic excellence and unprecedented scholastic achievements to strategic regions of the world: in Asia, US and Europe. HELP ELM Graduate School offers master's and doctoral level courses. It is the leading centre for innovative and benchmarking advanced level training and research programs up to and beyond doctoral level in a wide range of disciplines. It brings together the best brains and intellects locally and from abroad to deliver education and training programs of high value, and also to engage in study and research activities that equip people with smart mindsets to cope with change, tackle crises and re-engineer enterprises, corporations and institutions into smart and intelligent entities. Programs offered: HELP Master's degrees: Business Administration (MBA), Entrepreneurship, Executive Management, Accounting and Finance, Corporate Governance, Project Management, Human Resource Development, Education (TESL and Teaching and Learning), Philosophy, Psychology, Economic Crime Management, Counselling, Clinical Psychology, Applied Psychology in Coaching. HELP Doctoral degrees: Doctor of Business Administration, Doctor of Philosophy, Doctor of Philosophy (Psychology). Bachelor's 3+0 Programs with UK Universities: Anglia Ruskin University - an innovative and dynamic university named Entrepreneurial University of the Year 2014. Programs offered: IT, Computer Science, Engineering, Accounting & Finance, Business, Marketing. Includes a 2-week paid trip to the ARU campus in UK for the Unique Global Exposure experience.

Data and Business Analytics

- Data analytics elements embedded into curricula
- Offering all students a Certificate in Big Data and Business Analytics at no charge
- Professional certification from data science organizations like SAS
- Providing the largest Bloomberg Finance Lab in the country to teach students online trading.

HELP University Degrees
Ever since it attained university status, HELP's home-grown degrees have been widely accepted as the standard bearer for quality among employers in industry and the professions in Malaysia and internationally. HELP's degrees are strong in areas like Business, Accounting and Finance, Psychology, IT, Law, Early Childhood Education, Economic Crime Management, Communication, Culinary Arts, Engineering, Hospitality and Tourism Management, and the American Degree Transfer Program.

The HELP Education Group - an Award Winning Enterprise Celebrated for Innovative and High Quality Education
Forbes Award for Asia Pacific's 200 Best Performing Companies capitalised below US\$1 billion 2011

- Best A-Level Centre in the World - Pearson Edexcel World Conference 2011
- Premier Digital Tech University Status - award by the Malaysian Digital Economy Corporation (MDEC) 2019
- Malaysian Toray Science Foundation Award (Education) for 19 consecutive years
- Champions for the last 15 years in the Malaysia Association of Private Colleges and Universities (MAPCU) sports carnival
- Named by OSK as one of the "50 Jewels" small capital companies
- ACCA Platinum Award for consistently high percentage of exam passes.

Bahria University
Discovering Knowledge

A Platform for Promising Minds

Here, you have an opportunity to discover, explore, ideate, create and lead the future

Vice Admiral
Muhammad Shafiq HI (M), Retired
Rector, Bahria University

Bahria University is a multidisciplinary, public research university known for its excellent standards in teaching, learning and research. Consistently ranked among the top public sector universities of Pakistan, we are widely recognized as a Pan-Pakistani University, with presence in three major metropolises of the country.

Established in the year 2000, under the patronage of Pakistan Navy, we have over the last two decades emerged as one of the fastest growing entrepreneurial university, keeping true to our motto of 'Discovering Knowledge' – a declaration of our commitment to attracting and supporting those who have the drive to shape a better world.

The Bahria University family – students, faculty and staff continue to embrace innovation to experience a wider perspective on learning, research and creativity, placing us at the forefront of discovery, learning and engagement. At Bahria University, we encourage bold thinking, curiosity and initiative, so that you can realize your greatest potential.

A National University with International Aspirations

Top 400 University of Asia QS ASIAN UNIVERSITY RANKINGS	75+ Degree Programs 12 Academic Departments	17000+ Student Body	Offering BBA Fast Track for Students with 2-Year Bachelor's Degree	World Bank Recognized Incubators	Scholarship Grants to 1800 Students worth PKR 88 Million in FY 2017-18 Research Funding in excess of PKR 240 Million	All Academic Programs recognized by HEC and accredited by PEC, PMDC, PNC, PBC, NBEAC and NCEAC
---	--	----------------------------	---	---	--	---

International Linkages

Bahria University has a dedicated International Office with aim to produce globally competent quality students. BU International Office is actively involved in tapping knowledge and research exchange opportunities for its students, staff and faculty to gain global exposure and to enhance their skill set. Reflecting its dedication for global academic excellence, BU International office has active academic partnerships with 39 international universities of various natures. Provisions including exchange programs, credit hour transfers, summer school programs, international conferences, joint research and internship opportunities are some of the prominent highlights.

Campus life

BU campus life offers a rich and vibrant experience. It is truly welcoming and focuses on personal and professional development. BU recognizes each student as a unique asset and has designed academic and non-academic activities to cater individual attributes, aimed at holistic grooming of students. Intercultural diversity is encouraged and university works closely with students and departments to provide a thriving and engaging student experience that instills a sense of belonging and ensures career readiness with a blend of civic responsibility.

Campus Facilities
